

**Brothers of
the Christian
Schools**

Formation and Service camp of the Young Lasallians in Egypt

Duration: 10 days (from 25th of July to 3rd of August 2024)

Camp theme: Lsasallian Acts

Camp objective:

With the participation of 71 young Lasallians from all over the country, the camp lasted for 10 days, which were divided into 5 days for formation and 5 days for service in eight villages in Upper Egypt in partnership with the (Association of Upper Egypt for Education and Development) schools.

Within the framework of the Fraternity in Action program, which had a previous meeting last April, Lasallians from different parts of the world participated in the camp in Upper Egypt, such as Austria, Lebanon, Italy, and France, where they participated in the camp, whether by preparing reflections and prayers and participating in the formation and service provided to the children in the last five days of the camp, and also by living the experience and sharing the mission presented from the young lasallians in Egypt for the most needy children in the villages. In addition to their distinguished participation in the formation meetings that took place for the youth in the villages schools where they lived during the service period, they lived within mixed groups that included young Lasallians from all over Egypt, so that they would be aware of the Lasallian experience and mission carried out by the youth in Egypt, which in turn shapes and expands their view of the Lasallian world in its diversity and comprehensiveness, not only by transferring their personal experience but also by benefiting from living the experience on the ground and looking deeply at the different methods of meeting the needs with the least available sources.

It was a fruitful opportunity to live all the fraternity actions.

The formation in the camp was based on 4 axes representing the Lasallian Acts (Feel -Dream - Do - Share), and all of these acts are inspired by the life of Saint John Baptiste de La Salle and how he saw, felt, dreamed, then did, and shared.

From the training axes, the service with the children in Upper Egypt was launched.

Sessions:

- 1- Knowing and distinguishing feelings (awareness).
- 2- Emotional intelligence.
- 3- Dream and Logic - How does a dream become reality?
- 4- upbringing conscience.
- 5- Action or Reaction (according to Pope Francis' message to youth)
- 6- How do I share the mission with the others?
- 7- In addition to 2 workshops about (Decision awareness and Emotions management)
